Chennai, Tamil Nadu, India

During my internship at Bounteous, I completed a comprehensive full-stack training program. This involved mastering a range of front-end and back-end technologies. Throughout this experience, I developed five projects demonstrating my expertise in HTML and CSS, DOM manipulation and REST APIs, ReactJS, Java, and Spring.

HighRadius

Product Engineering Intern

January 2022 - April 2022 (4 months)

As an intern, I built a web application, an interactive B2B Invoice management system to help the people working in the Accounts Receivable departments in their day-to-day activities. This web application helped users in the Account Receivable department to

visualize invoices in the form of a responsive receivables dashboard, perform Searching operations on the invoices, add & edit data in the editable fields of the grid, delete data of selected rows in predefined templates.
